

Jaime Guzmán

Frontend Developer | React, TypeScript, Tailwind

jaimeguzmanlt@gmail.com | +591 76969626 | Cochabamba, Bolivia | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Frontend Developer (React, React Native, TypeScript, Tailwind CSS) with experience in commercial SaaS ERPs. Independently designed and deployed a POS/ERP with loyalty management currently used daily by a coffee shop, plus a full inventory/sales ERP for an auto parts importer.

PROJECTS

KafeYana — POS/ERP for Coffee Shop *(In Production)*

- Full-stack POS/ERP in daily use by a real coffee shop: sales, tables, inventory (recipes/BOM), purchasing, cash register, multi-tier loyalty program (points, promos, referrals).
- Built the entire frontend (React 19, Vite, TS, Tailwind), real-time order sync (SignalR), reporting dashboards (Recharts, PDF).
- **Stack:** React 19, TypeScript, Vite, Tailwind, TanStack Query, SignalR, GraphQL, .NET 9, PostgreSQL · Vercel + Azure

 [Demo en video](#)

Auto Parts Importer ERP — Inventory & Sales *(In Production)*

- End-to-end ERP: inventory with composite "Kit" products, real-time multi-role sales flow (Cashier/Warehouse/Customer), imports, cash register.
- Built the full frontend (React 18, TS, Vite, Zustand, TanStack Table, Tailwind) with SignalR sync, barcode scanning, mixed payments; architected the .NET backend (Clean Architecture, AI-assisted).
- **Stack:** React 18, TypeScript, Vite, Zustand, Tailwind, SignalR, GraphQL/REST, .NET, PostgreSQL

EXPERIENCE

Frontend Developer — Internship, GEOTEC (SaaS ERP)

01/2025 – 04/2025 · Cochabamba

- Built core modules (Subscriptions, Entities) for a commercial SaaS ERP; reusable components for large data tables with optimized rendering/pagination across multi-client setups.

Frontend Mobile & Web Developer — EcoEcores

05/2025 – 08/2025 · Cochabamba

- React Native app with real-time geolocation/maps + admin Web Dashboard (React/Tailwind) for logistics; integrated REST APIs in a 6-person Agile team.

Frontend Web Developer (Freelance) — Creaciones Nikolet

10/2025 – 12/2025 · Cochabamba

- SPA catalog (React + TypeScript) that replaced manual WhatsApp-based ordering with a centralized inventory platform; Mobile-First, optimized image loading.

TECHNICAL SKILLS

- **Frontend & Mobile:** React.js, React Native, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Vite
- **State & Data:** Zustand, TanStack Query/Table, REST, GraphQL, SignalR (real-time)
- **Backend & Tools:** Java, Spring Boot, .NET, PostgreSQL, Git/GitHub, Docker
